Houston, Texas 77002

via overnight delivery

**Re: Municipal Setting Designation
100 North Jackson Street — Houston, Texas**

Dear Mr. Wooten:

Please find enclosed a City of Houston Municipal Setting Designation (MSD) application for the property located at 100 North Jackson Street in Houston, Texas (Site), the former American Engine and Grinding facility. If the City of Houston has any questions or requires additional information, please contact the undersigned at 281-543-7216 or bclevenger@ensafe.com.

Respectfully submitted,

EnSafe Inc.

ITEM	COH Use
Executive Summary	
<p>1. Provide a legal description of the boundaries of the designated property, including metes and bounds, and a copy of the deed for the property. <u>A professional surveyor currently registered with the Texas Board of Professional Surveying must certify that all property descriptions with metes and bounds are accurate.</u></p> <p style="text-align: right;"><u>Label "Appendix A"</u> ✓</p>	
<p>2. A description of the current use and, to the extent known, the anticipated use(s) of the designated property and properties within 500 feet of the boundary of the designated property.</p> <p style="text-align: right;"><u>Label "Appendix B"</u> ✓</p>	
<p>3. A site map showing.</p> <ul style="list-style-type: none"> a. The location of the designated property. b. The topography of the designated property as indicated on publicly available sources, which must note the watershed <u>including the nearest surface water body</u> and whether the designated property is located in a floodplain or floodway, as those terms are defined in Chapter 19 of the Code of Ordinances. c. The detected area of groundwater contamination. d. The location of all soil sampling locations and all groundwater monitoring wells. e. Groundwater gradients, to the extent known, and direction of groundwater flow. f. The ingestion protective concentration level exceedence zone for each contaminant of concern, to the extent known. g. Depth to groundwater for each affected zone. <p style="text-align: right;"><u>Label "Appendix C"</u> ✓</p>	
<p>4. Provide for each contaminant of concern within the designated groundwater:</p> <ul style="list-style-type: none"> a. A description of the ingestion protective concentration level exceedence zone and the non-ingestion protective concentration level exceedence zone, including a specification of the horizontal area and the minimum and maximum depth below ground surface. b. The level of contamination, the ingestion protective concentration level, and the non-ingestion protective concentration level, all expressed as mg/L units. c. Its basic geochemical properties (e.g., whether the contaminant of concern migrates with groundwater, floats or is soluble in water). <p style="text-align: right;"><u>Label "Appendix D"</u> ✓</p>	
<p>5. A table displaying the following information for each contaminant of concern, to the extent known:</p> <ul style="list-style-type: none"> a. The maximum concentration level for soil and groundwater, the ingestion protective concentration level, and the non-ingestion protective concentration level, all expressed as mg/kg for soils and mg/L for groundwater. b. The critical protective concentration level without the municipal setting designation, highlighting any exceedences. <p style="text-align: right;"><u>Label "Appendix E"</u> ✓</p>	

ITEM	COH Use Only
<p>6. If the plume extends beyond the limits of property owners listed in this application, list the owners of the additional property beneath which the plume(s) extend(s), and a summary of interactions with those property owners about the plume(s) and this MSD application. Please Note: You are not required under this item to notify affected property owners, only to provide a summary of who affected property owners are, and if there have been any communications. "No contact" can be an acceptable answer.</p> <p style="text-align: right;"><u>Label "Appendix F"</u> ✓</p>	
<p>7. A statement as to whether the source of the plume has been removed, the plume of contamination is stable (i.e. no change) or contracting, and the plume is delineated, <u>with the basis for that statement</u>. Please include historical sampling data.</p> <p style="text-align: right;"><u>Label "Appendix G"</u> ✓</p>	
<p>8. A statement as to whether contamination on and off the designated property <u>without</u> a Municipal Setting Designation <u>will exceed</u> a residential assessment level as defined in the Texas Risk Reduction Program or analogous residential level set by EPA, if known, and the basis for that statement.</p> <p style="text-align: right;"><u>Label "Appendix H"</u> ✓</p>	
<p>9. A statement as to whether contamination on and off the designated property <u>with</u> a Municipal Setting Designation <u>will exceed</u> a residential assessment level as defined in the Texas Risk Reduction Program or analogous residential level set by EPA, if known, and the basis for that statement.</p> <p style="text-align: right;"><u>Label "Appendix I"</u> ✓</p>	
<p>10. Identification of the points of origin of the contamination, to the extent known. <u>Please list the Potentially Responsible Party (PRP), if unknown, state unknown. (applications without the PRP listed will be deemed incomplete)</u></p> <p style="text-align: right;"><u>Label "Appendix J"</u> ✓</p>	
<p>11. Environmental regulatory actions, litigation, and plume identification.</p> <ul style="list-style-type: none"> a. A description of any environmental regulatory actions that have been taken within the past five years in connection with the designated property, to the extent known. b. A description of any litigation that has taken place within the past five years in connection with the designated property, to the extent known. c. A statement as to whether there are any other remediation activities by the applicant, or any other party or agency, which are not listed in the application. d. A statement as to which contamination plume and groundwater zone the applicant is including in the MSD. <p style="text-align: right;"><u>Label "Appendix K"</u> ✓</p>	
<p>12. A listing of all existing state or EPA registrations, permits, and identification numbers that applies to the designated property.</p> <p style="text-align: right;"><u>Label "Appendix L"</u> ✓</p>	

ITEM	COH Use Only
<p>13. Provide evidence that the designated property is currently or has previously been under the oversight of the TCEQ or the United States Environmental Protection Agency, as required by the Texas Health & Safety Code § 361.8065(c)(2)(A), and a description of the status of the designated property in the program (the program application number is sufficient evidence). Also, include the state or federal cleanup project manager's name.</p> <p style="text-align: center;"><u>Label "Appendix M"</u> ✓</p>	
<p>14. A summary of any environmental site assessment reports filed with TCEQ regarding any site investigations or response actions that are planned, ongoing or completed related to the designated property.</p> <p style="text-align: center;"><u>Label "Appendix N"</u> ✓</p>	
<p>15. A statement as to whether any public drinking water supply system exists that satisfies the requirements of Chapter 341 of the Texas Health and Safety Code and that supplies or is capable of supplying drinking water to the designated property and property within one-half mile of the designated property and the identity of each supply system.</p> <p style="text-align: center;"><u>Label "Appendix O"</u> ✓</p>	
<p>16. The name and address of each owner or operator of a water well registered or permitted by the state or the Houston-Galveston Subsidence District that is located within five miles of the boundary of the designated property, along with a map showing the location of each well and, to the extent known, a notation of whether each well is used for potable water. Well logs <u>must</u> be included in the electronic copy of the application, but should not be included in the hard copies. (An accompanying electronic excel file with mailing information should be included with your application.)</p> <p style="text-align: center;"><u>Label "Appendix P"</u> ✓</p>	
<p>17. The name and address of each retail public utility, as defined in section 13.002 of the Texas Water Code that owns or operates a groundwater supply well within five miles of the boundary of the designated property.</p> <p style="text-align: center;"><u>Label "Appendix Q"</u> ✓</p>	
<p>18. A listing of each municipality, other than the city of Houston, with a corporate limit within one-half mile of the boundary of the designated property.</p> <p style="text-align: center;"><u>Label "Appendix R"</u> ✓</p>	
<p>19. A listing of each municipality, other than the city of Houston, that owns or operates a groundwater supply well within five miles of the boundary of the designated property.</p> <p style="text-align: center;"><u>Label "Appendix S"</u> ✓</p>	
<p>20. A listing of owners of real property within 2,500 ft. of the boundary of the designated property as indicated by the most recent appraisal district records. Please Note: This requirement may include real property outside the City of Houston. Be sure to include <u>ALL</u> properties in the 2,500 ft. boundary. (An accompanying electronic excel file with mailing information should be included with your application.)</p> <p style="text-align: center;"><u>Label "Appendix T"</u> ✓</p>	

ITEM	COH Use Only
<p>21. Form U-2012-01 signed and sealed by a licensed professional engineer or licensed professional geoscientist authorized to practice in the State of Texas with expertise in environmental remediation. (Form U-2012-01 can be found at www.houstonmsd.org under the "Forms" section on the homepage.)</p> <p>Signing and sealing Form U-2012-01 certifies:</p> <ol style="list-style-type: none"> The contaminants of concern from sources on the designated property or migrating from or through the designated property more likely than not [do exceed] OR [do not exceed] a non-ingestion protective concentration level on property beyond the boundaries of the designated property. (select the appropriate statement) All requirements of Section 47-762 of the Houston Code of Ordinances have been met, including demonstration that the groundwater contamination plume has been fully delineated and is stable or contracting in size <p style="text-align: center;"><u>Label "Appendix U"</u> ✓</p>	
<p>22. If the licensed professional engineer or licensed professional geoscientist determines that contaminants of concern from sources on the designated property are migrating from or through the designated property more likely than not do exceed a non-ingestion protective concentration level on property beyond the boundary of the designated property, then the applicant must:</p> <ol style="list-style-type: none"> Specify the name and address of the owner of each property. Send a copy of the application to the owner of the property with the notice of the public meeting. Provide documentation that the designated property has been included in a state or federal program that requires that the entire non-ingestion protective concentration level exceedance zone be addressed to the satisfaction of the agency administering the program, along with documentation of the estimated time period in which it is to be addressed. An example of such a program is the Texas Voluntary Cleanup Program (section 361.501 of the Texas Health and Safety Code, as may be amended from time to time). Provide documentation upon completion of the state or federal program showing that the non-ingestion protective concentration level exceedances have been addressed to the satisfaction of the agency administering the program. <p style="text-align: center;"><u>Label "Appendix V"</u> ✓</p>	
<p>23. Form W-2012-01 certified/signed by the applicant and any authorized representatives of the applicant(s) listed in the application. (Form W-2012-01 is attached to the end of this application and can also be found at www.houstonmsd.org under the "Forms" section on the homepage.)</p> <p style="text-align: center;"><u>Label "Appendix W"</u> ✓</p>	
<p>24. Form X-2012-01 signed by the property owner or authorized agent (if an authorized agent, you must provide the legal authorization instrument). (Form W-2012-01 is attached to the end of this application and can also be found at www.houstonmsd.org under the "Forms" section on the homepage.)</p> <p style="text-align: center;"><u>Label "Appendix X"</u> ✓</p>	
<p>25. A CD (or other devise) containing the pdf file of the application, Excel spreadsheet of water well owners and property owners for mailing notices, and the pdf file of the well log report.</p> <p style="text-align: center;"><u>Label "Appendix Y"</u> ✓</p>	

EXECUTIVE SUMMARY

The property located at 100 North Jackson Street, Houston, Texas (Site) is being redeveloped into a craft brewery. The soil and groundwater at the Site were impacted by the operations of prior owners/operators and include petroleum-related chemicals of concern (COCs). The former owner/operator, American Engine and Grinding, used the Site from 1978 until 2019 for auto repair and manufacturing. The American Engine and Grinding facility was closed and the building was removed in February 2020. The Site meets the City of Houston's Municipal Setting Designation (MSD) eligibility requirements summarized below and as detailed throughout this application.

1. The Site has been thoroughly investigated.

Soil at the Site has been evaluated through the installation of seventeen (17) soil borings with forty (40) soil samples collected at various depths and analyzed for COCs including volatile organic compounds, total petroleum hydrocarbons, Resource Conservation and Recovery Act 8 metals, and poly-nuclear aromatic hydrocarbons.

A total of six (6) groundwater monitoring wells were installed and sampled. Based on data from the four (4) groundwater monitoring events in April 2020, June 2020, October 2020, and January 2021, only benzene, and only in two (2) of the groundwater monitoring wells, MW-01 (ranging from 0.190 to 0.0391 milligrams per liter [mg/L]) and MW-02 (ranging from 0.0125 to 0.272 mg/L), exceeded the Texas Commission on Environmental Quality's (TCEQ's) Texas Risk Reduction Program (TRRP) Tier 1 Residential ^{GW}GW_{ING} Protective Concentration Level (ingestion PCL) of 0.005 mg/L for benzene applicable without an MSD,. All benzene concentrations were and are well below the TRRP Tier 1 Residential ^{AIR}GW_{INH-V} PCL (non-ingestion PCL) of 180 mg/L applicable with an MSD.

2. The source of contamination has been removed.

During the Site investigation in June 2020, a steel sump was encountered beneath the former American Engine and Grinding building. Between June and July 2020, the sump was removed along with impacted soils where the highest COC concentrations were identified at the Site. After confirmatory sampling, all soil COC concentrations at the Site were found to be below critical TRRP Tier 1 Residential PCLs, with the assumption of obtaining an MSD.

3. The Site is enrolled in the Voluntary Cleanup Program.

On January 14, 2021, the Site was accepted into the TCEQ's Voluntary Cleanup Program (VCP ID No. 3126) for oversight of the Site investigation and remedial activities.

4. The groundwater plume is delineated to the ^{GW}GW_{ING} PCL.

Benzene concentrations in monitoring wells to the north-northwest (MW-05), northeast (MW-04), southeast (MW-03), and southwest (MW-06) were all non-detect or low-level detections below the Residential ^{GW}GW_{ING} PCL.

5. The groundwater plume is stable.

Statistical analysis of groundwater benzene data from monitoring events in April 2020, June 2020, October 2020, and January 2021 show that groundwater benzene concentrations are stable.

Appendix A

Provide a legal description of the boundaries of the designated property, including metes and bounds, and a copy of the deed for the property. A professional surveyor currently registered with the Texas Board of Professional Surveying must certify that all property descriptions with metes and bounds are accurate.

A professional survey and legal description of the Site, including metes and bounds, and a copy of the deed for the property are provided in Appendix A.

Appendix D

Provide for each contaminant of concern within the designated groundwater:

- a. A description of the ingestion protective concentration level exceedance zone and the non-ingestion protective concentration level exceedance zone, including a specification of the horizontal area and the minimum and maximum depth below ground surface.**
- b. The level of contamination, the ingestion protective concentration level, and the non-ingestion protective concentration level, all expressed as mg/L units.**
- c. Its basic geochemical properties (e.g., whether the contaminant of concern migrates with groundwater, floats or is soluble in water)."**

Based on data from four (4) groundwater monitoring events in April 2020, June 2020, October 2020, and January 2021, only benzene, and only in groundwater monitoring wells MW-01 (ranging from 0.190 to 0.0391 milligrams per liter [mg/L]) and MW-02 (ranging from 0.0125 to 0.272 mg/L), exceeds the TRRP Tier 1 Residential ^{GW}GW_{ING} PCL (ingestion PCL) of 0.005 mg/L for benzene applicable without an MSD. All benzene concentrations are well below the TRRP Tier 1 Residential ^{AIR}GW_{INH-V} PCL (non-ingestion PCL) of 180 mg/L applicable with an MSD.

Benzene is less dense than water (floats on water), is slightly soluble in water, and migrates downgradient in the dissolved phase. Benzene concentrations in the downgradient monitoring well to the north-northwest (MW-05), and in side- and up-gradient monitoring wells to the north-northeast (MW-04), southeast (MW-03), and southwest (MW-06) were all non-detect or at low-level detections below the Residential ^{GW}GW_{ING} PCL. The horizontal extent of the ingestion protective concentration level exceedance zone is depicted in Appendix C-F.

The benzene-impacted groundwater-bearing unit consists of interbedded layers of saturated to moist sand, clayey sand, and sandy clay extending from approximately 22 feet below ground surface (bgs) to approximately 40 feet bgs. A unit of red clay underlies the groundwater-bearing unit and acts as a barrier to vertical migration of the benzene-impacted groundwater. The groundwater-bearing unit is depicted in Appendix C-G.

Appendix E

A table displaying the following information for each contaminant of concern, to the extent known:

- a. The maximum concentration level for soil and groundwater, the ingestion protective concentration level, and the non-ingestion protective concentration level, all expressed as mg/kg for soils and mg/L for groundwater.**
- b. The critical protective concentration level without the municipal setting designation, highlighting any exceedances.**

Cumulative data tables displaying the concentration levels of COCs in soil and groundwater (including maximum concentration levels), the ingestion PCLs, the non-ingestion PCLs, and the critical PCLs with and without the MSD, highlighting any exceedances are provided in Tables 1-8.

Table 1
Summary of VOCs in Soil
100 N. Jackson Street — Houston, Texas

Notes:

mg/kg= milligrams per kilogram

bgs= below ground surface

NE = Not established

U = Results are nondetected for the analyte

B = The analyte was found in the associated blank.

J= Result is less than the method quantification limit (MQL) but greater than or equal to the adjusted sample detection limit (SDL) and the concentration is an approximate value.

Bold value indicates detected value for that analyte

Bold and shaded results indicate an exceedance of the Texas Specific Soil background concentrations or the Texas Risk Reduction Program (TRRP) Protective Concentration Levels (PCLs) for Tier 1 Res ^{GW}Soil_{ing} / TSBC = Less conservative value of the Tier 1 Residential PCL for Soil to Groundwater Ingestion Class 1 & 2 Groundwater at 0.5-acre site or the Texas Specific Soil Background Concentrations

Background Concentrations

Tier 1 Res ^{TOT}Soil_{Comb} = Tier 1 Residential surface soil PCL for combined soil ingestion, dermal contact, inhalation of volatiles and particulates at 0.5-acre site.

Maximum Concentration Level of Chemical of Concern Exceeding PCL

Tier 1 RES^{GW}SOIL_{ING} (CRITICAL PCL WITHOUT MSD)			65	200	200	NE

Notes:

mg/kg= milligrams per kilogram

bgs= below ground surface

NE = Not established

U = Results are nondetected for the analyte

J= Result is less than the method quantification limit (MQL) but greater than or equal to the adjusted sample detection limit (SDL) and the concentration is an approximate value.

Bold value indicates detected value for that analyte

Bold and shaded results indicate an exceedance of the Texas Risk Reduction Program (TRRP) Protective Concentration Levels (PCLs) for Residential or Commercial/Industrial Tier 1 Soil 0.5-acre source area.

Tier 1 Res^{GW}GW_{ING} = Tier 1 Residential PCL for Groundwater Ingestion Class 1 & 2 Groundwater at 0.5-acre site.

Tier 1 C/I^{GW}GW_{ING} = Tier 1 Commercial/Industrial PCL for Groundwater Ingestion Class 1 & 2 Groundwater at 0.5-acre site.

Appendix F

If the plume extends beyond the limits of property owners listed in this application, list the owners of the additional property beneath which the plume(s) extend(s), and a summary of interactions with those property owners about the plume(s) and this MSD application. Please Note: You are not required under this item to notify affected property owners, only to provide a summary of who affected property owners are, and if there have been any communications. "No contact" can be an acceptable answer.

The groundwater plume may extend slightly beneath the City of Houston rights of way (North Jackson Street and Ruiz Street) as depicted in Appendix C-F; however, no impacts are present across Jackson Street or Ruiz Street from the Site. The groundwater plume does not extend beneath any additional properties.

The extent of the groundwater plume and its relation to the City of Houston rights of way were discussed in a preliminary meeting with Mr. Mark Wooten on February 4, 2021.

Appendix G

A statement as to whether the source of the plume has been removed, the plume of contamination is stable (i.e. no change) or contracting, and the plume is delineated, with the basis for that statement. Please include historical sampling data.

The source of the groundwater plume has been removed.

During the Site investigation and remedial activities, in June 2020, a steel sump was encountered beneath the former American Engine and Grinding building. Between June and July 2020, the sump was removed along with all impacted soils. A photolog is provided in Appendix G-A.

The plume contamination is stable.

Statistical analysis of groundwater benzene data from the four (4) monitoring events (April 2020, June 2020, October 2020, and January 2021) demonstrate that benzene concentrations in groundwater are stable. A Mann-Kendall Statistical Evaluation Summary Table and supporting worksheets are provided in Appendix G-b.

The plume is delineated.

Benzene concentrations in monitoring wells to the north-northwest (MW-05), northeast (MW-04), southeast (MW-03), and southwest (MW-06) were all non-detect or at low-level detections below the Residential ^{GW}GW_{ING} PCL. The plume extent and delineation are depicted in Appendix C-F.

Appendix G-a

Appendix H

A statement as to whether contamination on and off the designated property without a Municipal Setting Designation will exceed a residential assessment level as defined in the Texas Risk Reduction Program or analogous residential level set by EPA, if known, and the basis for that statement.

Based on data from the four (4) groundwater monitoring events in April 2020, June 2020, October 2020, and January 2021, benzene in groundwater monitoring wells MW-01 and MW-02 exceeds the TRRP Tier 1 Residential ^{GW}GW_{ING} PCL (ingestion PCL) for benzene, which is the critical Residential PCL without the MSD in place.

Appendix I

"A statement as to whether contamination on and off the designated property with a Municipal Setting Designation will exceed a residential assessment level as defined in the Texas Risk Reduction Program or analogous residential level set by EPA, if known, and the basis for that statement."

Based on data from the four (4) groundwater monitoring events in April 2020, June 2020, October 2020, and January 2021, all benzene concentrations in all groundwater monitoring wells are well below the TRRP Tier 1 Residential $^{AIR}GW_{INH-V}$ PCL (non-ingestion PCL) of 180 mg/L for benzene, which is the critical Residential PCL with the MSD in place. The maximum benzene level in the latest groundwater monitoring event was 0.115 mg/L.

Appendix J

Identification of the points of origin of the contamination, to the extent known. Please list the Potentially Responsible Party (PRP), if unknown, state unknown. (applications without the PRP listed will be deemed incomplete).

American Engine and Grinding (TCEQ Reference Number 100572650) used the Site from 1978 until 2019 for auto repair and manufacturing. The source area of the contamination (steel sump and highest contaminant concentration levels) was identified beneath the former American Engine and Grinding building on the on the west portion of the Site.

Appendix K

Environmental regulatory actions, litigation, and plume identification.

- a. **A description of any environmental regulatory actions that have been taken within the past five years in connection with the designated property, to the extent known.**

On January 14, 2021, the Site was accepted into the TCEQ's Voluntary Cleanup Program (VCP ID No. 3126) for oversight and review of Site investigation and remedial activities. A copy of the TCEQ Voluntary Cleanup Program acceptance letter is include in Appendix M.

- b. **A description of any litigation that has taken place within the past five years in connection with the designated property, to the extent known.**

No litigation has taken place within the last five (5) years in connection with the Site.

- c. **A statement as to whether there are any other remediation activities by the applicant, or any other party or agency, which are not listed in the application.**

There are no other known remediation activities at the Site by the applicant, or any other party or agency, which are not listed in the application.

- d. **A statement as to which contamination plume and groundwater zone the applicant is including in the MSD.**

The applicant is including the benzene-impacted groundwater-bearing unit extending from approximately 22 feet below ground surface (bgs) to approximately 40 feet bgs in the MSD application.

Appendix L

A listing of all existing state or EPA registrations, permits, and identification numbers that applies to the designated property.

A listing of all existing state or EPA registrations, permits, and identification numbers that apply to the Site is provided in Table L.

Table L		
Entity Name	Permit, Registration, or Other Authorization	ID Number
American Engine & Grinding Company	Texas Commission on Environmental Quality Facility Registration	RN100572650
	Texas Commission on Environmental Quality Registration Solid Waste Registrations	36102 & 71637
	Nation Pollutant Discharge Elimination System Stormwater Permit	TXRNEZ118
	Environmental Protection Agency Facility Registration	110005048448
	Resource Conservation and Recovery Act Handler	TXD044452340
Sorensen Real Estate Company, LLC	Texas Commission on Environmental Quality Voluntary Cleanup Program	3126

Appendix M

Provide evidence that the designated property is currently or has previously been under the oversight of the TCEQ or the United States Environmental Protection Agency, as required by the Texas Health & Safety Code § 361.8065(c)(2)(A), and a description of the status of the designated property in the program (the program application number is sufficient evidence). Also, include the state or federal cleanup project manager's name.

On January 14, 2021, the Site was accepted into the TCEQ's Voluntary Cleanup Program (VCP ID No. 3126) for oversight and review of Site investigation and remedial activities. Ms. Krista Brandt is the assigned TCEQ Project Manager for the Site. A copy of the TCEQ Voluntary Cleanup Program acceptance letter is provided in this Appendix.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

January 14, 2021

Mr. John Sorenson, Vice President
Sorenson Real Estate Company, LLC

Via Email

Re: 100 North Jackson Street Property (site), located at 100 N. Jackson St., Houston, Harris County, TX; Voluntary Cleanup Program (VCP) No. 3126; Customer No. CN605846724; Regulated Entity No. RN100572650

Dear Mr. Sorenson:

The Texas Commission on Environmental Quality (TCEQ) has received the Voluntary Cleanup Program Application submitted pursuant to §361.604 of the Texas Solid Waste Disposal Act for assistance and review of site investigation and cleanup activities for the above referenced site. After careful review, the application is determined to be administratively complete and is eligible for the VCP. Enclosed for your records is a signed copy of the VCP Agreement. Ms. Krista Brandt is the assigned project manager for this site. Based on the VCP Agreement submittal schedule, the Affected Property Assessment Report (APAR) is due on June 30, 2021. Quarterly Status Reports are due on the 15th of the month following each quarter, beginning March 15, 2021.

Future submittals should be mailed to the TCEQ, VCP-CA Section, mail code MC-221, at the letterhead address. Please provide one paper copy and one electronic copy (on USB or disc) of all submittals. Note that the electronic and hard copies should be identical, complete copies. A Correspondence ID Form (TCEQ Form 20428) must accompany each document submitted to the Remediation Division and should be affixed to the front of your submittal. The Correspondence ID Form helps ensure that your documents are identified correctly and are routed to the applicable program for a timely response. You may contact Ms. Brandt with any questions at Krista.Brandt@tceq.texas.gov or (512) 239-0053.

Sincerely,

A handwritten signature in blue ink, appearing to read "Iryna Kushnirsky".

Iryna Kushnirsky, Team Leader
VCP-CA Section
Remediation Division

Alma Jefferson, Waste Section Manager, TCEQ Region 12 Office, Houston

Appendix N

A summary of any environmental site assessment reports filed with TCEQ regarding any site investigations or response actions that are planned, ongoing or completed related to the designated property.

The following reports have been filed with TCEQ regarding the Site investigations and/or response actions that are planned, ongoing, or completed related to the Site:

1. June 20, 2018, *Phase I Environment Site Assessment*, QC Laboratories, Inc.
2. May 8, 2020, *Site Investigation Report*, EnSafe
3. July 23, 2020, *Groundwater Monitoring Report* (June 2020 Monitoring Event), EnSafe
4. July 23, 2020, *Soil Removal Report*, EnSafe
5. December 11, 2020, *Groundwater Monitoring Well Installation and Sampling Report* (October 2020 Monitoring Event), EnSafe
6. December 11, 2020, *Drinking Water Survey Report*, EnSafe
7. December 18, 2020, *Voluntary Cleanup Program Application and Agreement*

Appendix O

A statement as to whether any public drinking water supply system exists that satisfies the requirements of Chapter 341 of the Texas Health and Safety Code and that supplies or is capable of supplying drinking water to the designated property and property within one-half mile of the designated property and the identity of each supply system.

The local public drinking water supplier was identified as the City of Houston. According to the City of Houston's Drinking Water Operations online information, the City of Houston sources its drinking water from local lakes and rivers (from the Trinity River into Lake Livingston, and from the San Jacinto River into Lake Conroe and Lake Houston) and from deep underground wells drilled into the Evangeline and Chicot aquifers. According to Mr. Rudy Moreno, Jr., Deputy Assistant Director, Houston Water, Infrastructure & Development Services, and available on-line records from the City of Houston Public Works Public Utility Maps, the City of Houston supplies or is capable of supplying drinking water to the Site and property within 0.5 miles of the Site. Correspondence with Mr. Moreno Jr. is provided in this Appendix.

To: Forrest, Yvonne - PWE <Yvonne.Forrest@houston.tx.gov>
Subject: 100 North Jackson Street/City of Houston Water

Good morning Yvonne,

Would you please confirm that the City of Houston supplies, or is capable of supplying, drinking water to the property at 100 North Jackson Street and all properties within a 0.5-mile radius. For your reference, attached is a map showing all properties within 0.5-miles are within City of Houston city limits and have public water availability. Thank you.

Best Regards

Bryan Clevenger

Appendix P

The name and address of each owner or operator of a water well registered or permitted by the state or the Houston-Galveston Subsidence District that is located within five miles of the boundary of the designated property, along with a map showing the location of each well and, to the extent known, a notation of whether each well is used for potable water. Well logs must be included in the electronic copy of the application, but should not be included in the hard copies. (An accompanying electronic excel file with mailing information should be included with your application.)

A 5-Mile Municipal Setting Designation (MSD) Report prepared by GeoSearch is provided which includes the name and address of each owner or operator of a water well registered or permitted by the state or the Houston-Galveston Subsidence District that is located within five (5) miles of the boundary of the Site, along with a map showing the location of each well and, to the extent known, a notation of whether each well is used for potable water, and well logs. An accompanying electronic excel file with mailing information is provided in Table P.

Appendix U

"Form U-2012-01 signed and sealed by a licensed professional engineer or licensed professional geoscientist authorized to practice in the State of Texas with expertise in environmental remediation. (Form U-2012-01 can be found at www.houstonmsd.org under the "Forms" section on the homepage.)

Signing and sealing Form U-2012-01 certifies:

- a. The contaminants of concern from sources on the designated property or migrating from or through the designated property more likely than not [do exceed] OR [do not exceed] a non-ingestion protective concentration level on property beyond the boundaries of the designated property. (select the appropriate statement)**
- b. All requirements of Section 47-762 of the Houston Code of Ordinances have been met, including demonstration that the groundwater contamination plume has been fully delineated and is stable or contracting in size."**

Form U-2012-01 signed and sealed by a licensed professional engineer or licensed professional geoscientist authorized to practice in the State of Texas with expertise in environmental remediation is provided.

Appendix U – Completeness of Information and On-Site and Off-Site Impact(s)

To the best of my knowledge and belief, based upon a review of all public and private records and other information sources available to me in the exercise of due diligence, the opinions stated and conclusions made in this application are supported by such information, and the technical and scientific information submitted with the application is true, accurate and complete. Based on such review, the contaminants of concern from sources on the designated property or migrating from or through the designated property more likely than not [do exceed] OR **[do not exceed]** a non-ingestion protective concentration level on property beyond the boundaries of the designated property. Further, I certify that all requirements of Section 47-762 of the Houston Code of Ordinances have been met, including demonstration that the groundwater contamination plume has been fully delineated and is stable or contracting in size.

Appendix V

"If the licensed professional engineer or licensed professional geoscientist determines that contaminants of concern from sources on the designated property are migrating from or through the designated property more likely than not do exceed a non-ingestion protective concentration level on property beyond the boundary of the designated property, then the applicant must:

- a. Specify the name and address of the owner of each property.**
- b. Send a copy of the application to the owner of the property with the notice of the public meeting.**
- c. Provide documentation that the designated property has been included in a state or federal program that requires that the entire non-ingestion protective concentration level exceedance zone be addressed to the satisfaction of the agency administering the program, along with documentation of the estimated time period in which it is to be addressed. An example of such a program is the Texas Voluntary Cleanup Program (section 361.501 of the Texas Health and Safety Code, as may be amended from time to time).**
- d. Provide documentation upon completion of the state or federal program showing that the non-ingestion protective concentration level exceedances have been addressed to the satisfaction of the agency administering the program."**

Based on data from four (4) groundwater monitoring events in April 2020, June 2020, October 2020, and January 2021, all benzene concentrations in all groundwater monitoring wells are below the TRRP Tier 1 Residential ^{ATR}GW_{INH-V} PCL (non-ingestion PCL) for benzene. There are no COCs from sources on the Site migrating from or through the Site which exceed a non-ingestion PCL.

Appendix W

"Form W-2012-01 certified/signed by the applicant and any authorized representatives of the applicant(s) listed in the application. (Form W-2012-01 is attached to the end of this application and can also be found at www.houstonmsd.org under the "Forms" section on the homepage.)"

Form W-2012-01 certified/signed by the applicant and any authorized representatives of the applicant(s) listed in the application is provided.

Appendix W – Accuracy of Information

I certify under penalty of law that this application and all attachments were prepared under my direction or supervision in a manner designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the persons responsible for gathering and evaluating the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of a fine and imprisonment for knowing violation.
