2023	1.2% ¹⁰	See Note ⁹	5%	Yes

⁸ The 37 Lift Stations that were identified with defects in FY2023 will be remediated through Houston's Capital Improvement Program. In the interim, remedial measures necessary to maintain operational functionality of these 37 Lift Stations will be addressed by Houston's Wastewater Maintenance team.

⁹ Houston assessed its gravity sewer mains and manholes using NASSCO OPRI method in CD Years 1 & 2 before changing to Quick Rating in CD Year 3. CD Year 1 OPRI condition assessment yielded 44.6 mi of condition score 4/5 gravity sewer mains; 44.6 mi of gravity sewer mains were remediated in CD Year 2. CD Year 2 OPRI condition assessment yielded 82.8 mi of condition score 4/5 gravity sewer mains; however, Houston has committed to remediating at least 150 miles of gravity sewer mains in CD Year 3.

IX. Wastewater Treatment Plants (WWTPs)

The Operation and Maintenance Performance Evaluation (OMPE) reports have been finalized for 14 WWTPs. These assessments identified deficiencies that would be addressed through O&M and CIP activities. The assessments identified functional components that are approaching the end of typical effective useful life. Renewal/replacement of these components will require engineering design services, permitting, and construction that are being programmed into the Houston's CIP process.
