FREQUENTLY ASKED QUESTIONS

2024 SMART UTILITY CHECK-UP PROGRAM

What does the program include?

The 2024 Smart Utility Check-up Program offers one year of free professional water, electricity, and gas utility assessments to the initial 50 qualifying commercial water customers in the City of Houston. Each assessment comprises data analysis on utility usage and a monthly breakdown of cost and consumption patterns. The program also incorporates recommended practices, guidance on potential cost savings, and assistance with rebates.

Why participate?

This program can find inefficiencies in your building's water consumption, energy and natural gas use. Identifying these areas can reduce your overhead cost, saving you money. Past participants have saved millions of gallons of water and tens of thousands of dollars in overhead costs in less than one year. Results will vary site to site and are also dependent on implementing recommendations.

Who provides the assessments?

Through this program, Imperial Utilities & Sustainability, Inc. will provide 50 free monthly water and utility assessments through 2024 for qualifying commercial buildings.

How do I apply?

Scan the QR code on the flyer or visit bit.ly/3tEwTKs to complete the application. Participation is limited to the first 50 qualifying applicants.

What is the application deadline?

The application period closes on June 30, 2024.

Eligibility

In order to participate in the program, the applicant must meet the following qualifications:

- Be a Houston commercial water customer
- Own or manage a building with a minimum size of 40,000 square feet or have a cooling tower Be fully operational for two years or more
- Be either a building owner or an authorized agent of one of the following account types:
 - Governmental entity
 - Commercial customer
 - Non-profit customer
 - Educational institution
 - Multi-family customer
- Have either an individual meter or a sub-meter
- Be able to provide 24 months of previous water bills

Note: Customers with a central plant that services multiple buildings are not eligible to apply.
